# Editing Your Website Content

Select the content that you wish to edit and a window opens up in which to make the desired changes.

Using the toolbar editor, you can make a multitude of changes to any page, including:

- Adding web, email or text anchor links to photos or text
- Adding photos
- Block Quoting
- Numbered and Bulleted Lists
- Alignment editing
- Text styling through use of headings, subheadings and highlighting

Remember, for any changes that you make, be sure to hit the Save Content icon to save your changes and upload them live to your website.
